# Eastview Library Link

A Special Article from the Library

**MARCH** is a notable month  
in the library.

We celebrate Dr. Seuss'  
birthday, Music Month,  
Women's History Month,  
and Spring.

This month we continue our study of the Dewey Decimal Classification System. Melvil Dewey invented the numbering system we use in the library. The system divides all books into categories based on subjects. See our Eastview Library homepage under What's New? to learn more about DDCS.

We welcome author,  
Alan St. Jean, to  
Eastview on Friday,  
**March 7th.** Join us  
if you can. Ask your  
child about his visit!

We continue to work this quarter to meet their A.R. goals. Students achieve **Wall of Fame** status with 85% correct or higher average on quizzes AND 100% of the assigned points plus meeting or exceeding their book level goal. Quarter 3 ends on **March 28th.**

Recommended reading for March:  
all grades- any book by Dr. Seuss. My favorites include *The Butter Battle Book* and *The Horton Hears a Who*.

Luckily reading,  
Ms. Fesenmaier
